

## MORGAN TAYLOR

Morgan Taylor is a 25-year-old vet student from northeast New Jersey with dreams of one day becoming a racetrack veterinarian in southern California. As an equine student, Morgan is acutely aware of the competitive field she is about to enter, and as such, she strives to absorb all the information she can while at Penn Vet.

Morgan's passion for horses extends outside the clinic and into the ring, where she non-competitively trains in "eventing". Away from the stable, Morgan likes to spend her free time exploring Philadelphia with her dog, Millie.

A passionate international traveler, Morgan speaks fluent Spanish – and is conversational in French – and is always looking for ways to utilize her strong linguistic skills. Morgan dreams of one day owning a 60's Mustang Coupe. As a gear head, Morgan will even fix the car herself to make this dream a reality!
