PREMIERES

REASONABLE DOUBT

Season Three Premieres Tuesday March 3 at 10/9c

In a justice system that's not always so just, families can be tormented by the question of guilt or innocence of their convicted loved ones. REASONABLE DOUBT returns with all-new episodes profiling the gut-wrenching process of re-exploring murder cases where the perpetrators convicted of the crime maintain their innocence. Retired homicide detective Chris Anderson teams with criminal defense attorney Fatima Silva, to pore through evidence, interview witnesses and consult experts previously overlooked by police or barred by the court. At the end of each episode, the determined investigators evaluate their findings and either offer the convicted's family hope for an appeal, or clarity to accept the guilty verdict.

- **When the Gun Went Off premieres Tuesday, March 3 at 10/9c**
When Kathy Middleton died in her own home, police had three options to explore: it was an accident, suicide, or her husband, Ken, killed her. After deciding on option three, Ken is now serving life in prison, but his family insists he was wrongfully convicted.
- **Obsessed with Celeste premieres Tuesday, March 10 at 10/9c**
75-year-old retired television executive Steven Beard is shot in his own home, but his wife, Celeste Beard, didn't pull the trigger. So why is she in prison for his murder? Her family hopes Chris and Fatima can find out.

MY MURDER STORY

New Series Premieres Thursday, March 5 at 10/9c

In the aftermath of murder, a victim's family struggles with grief. Finding out what really happened is their only hope to heal. But, when they uncover secrets that change everything they thought they knew, a truth far more sinister emerges. MY MURDER STORY follows intimate, life-changing journeys from the perspective of motivated family members and dedicated detectives, who have been left to pick up the scattered pieces that remain after the shock of a homicide. Their revelatory memories and thorough re-exploration of the crime lure us deeper inside a world that's layered and unpredictable.
